2010 - Teak 3009

2010 - Teak 6007

2010 - Walnut 6009

2010 - Wenge 64818

The colours shown on this palette are to be used as a guide only. Actual colours will vary due to computer monitor displays and how individuals see colour. The final appearance of the stain is affected by many factors including timber colour species and number of coats of the stain. (Higher number of coats results in darker colour). It is up to the user to test and confirm the colour on a sample board before application. This colour chart should be used as an indicative guide of colour only. This Stain Guide is based on information in Mirostone's possession at the "date of issue". Amendments to the Stain Guide can be made at any time. Users should check that this Stain Guide is still current before applying coatings as per the information contained within.
