Sydney Lyric plays host to large scale musicals, theatre productions, concerts, opera's and ballets. Formerly known as the Lyric Theatre, the venue changed to its current name in late 2011. After lengthy renovations to improve the sight-lines, ceiling and adding moveable walls within the theatre, the Sydney Lyric was able to open its doors to allow theatre enthusiasts a more intimate and comfortable experience.

The new Sydney Lyric allows the theatre to shape shift walls according to ticket sales, while creating a full house performance.

The GDK Group used Mirotone's MIROSTAIN Stains and MIROBILD AC 3606 Clear Topcoat in a satin finish to coat the wood panelling's within the theatre. The end result provides a comfortable, warm atmosphere for all to enjoy.
